Prepare for work

Work explainer lessons

Micro credential courses

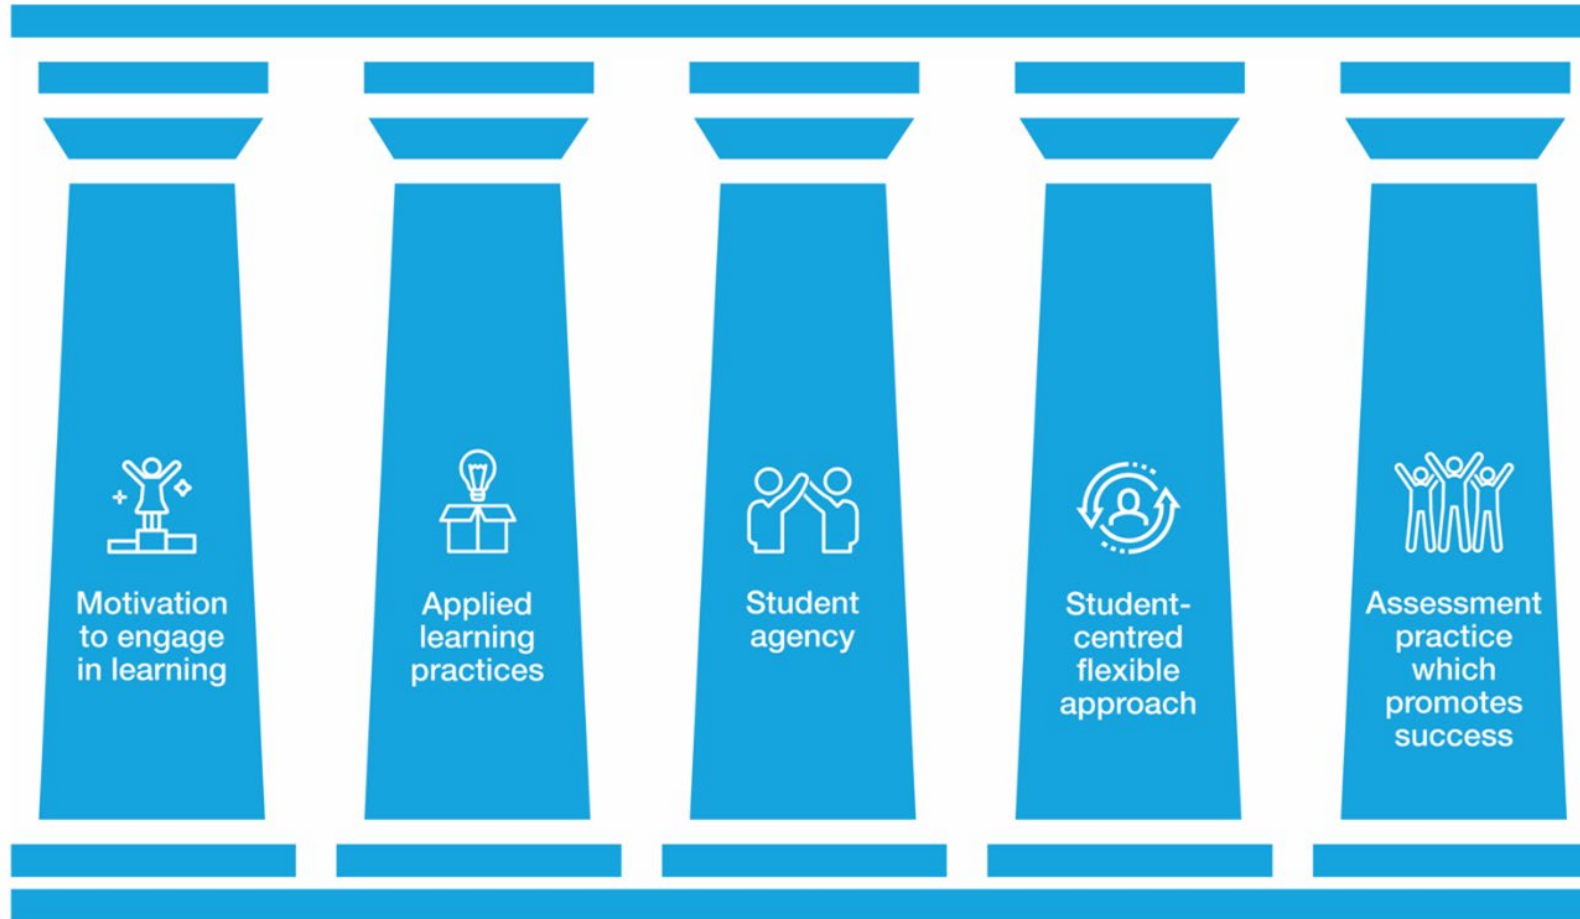

Pathways support

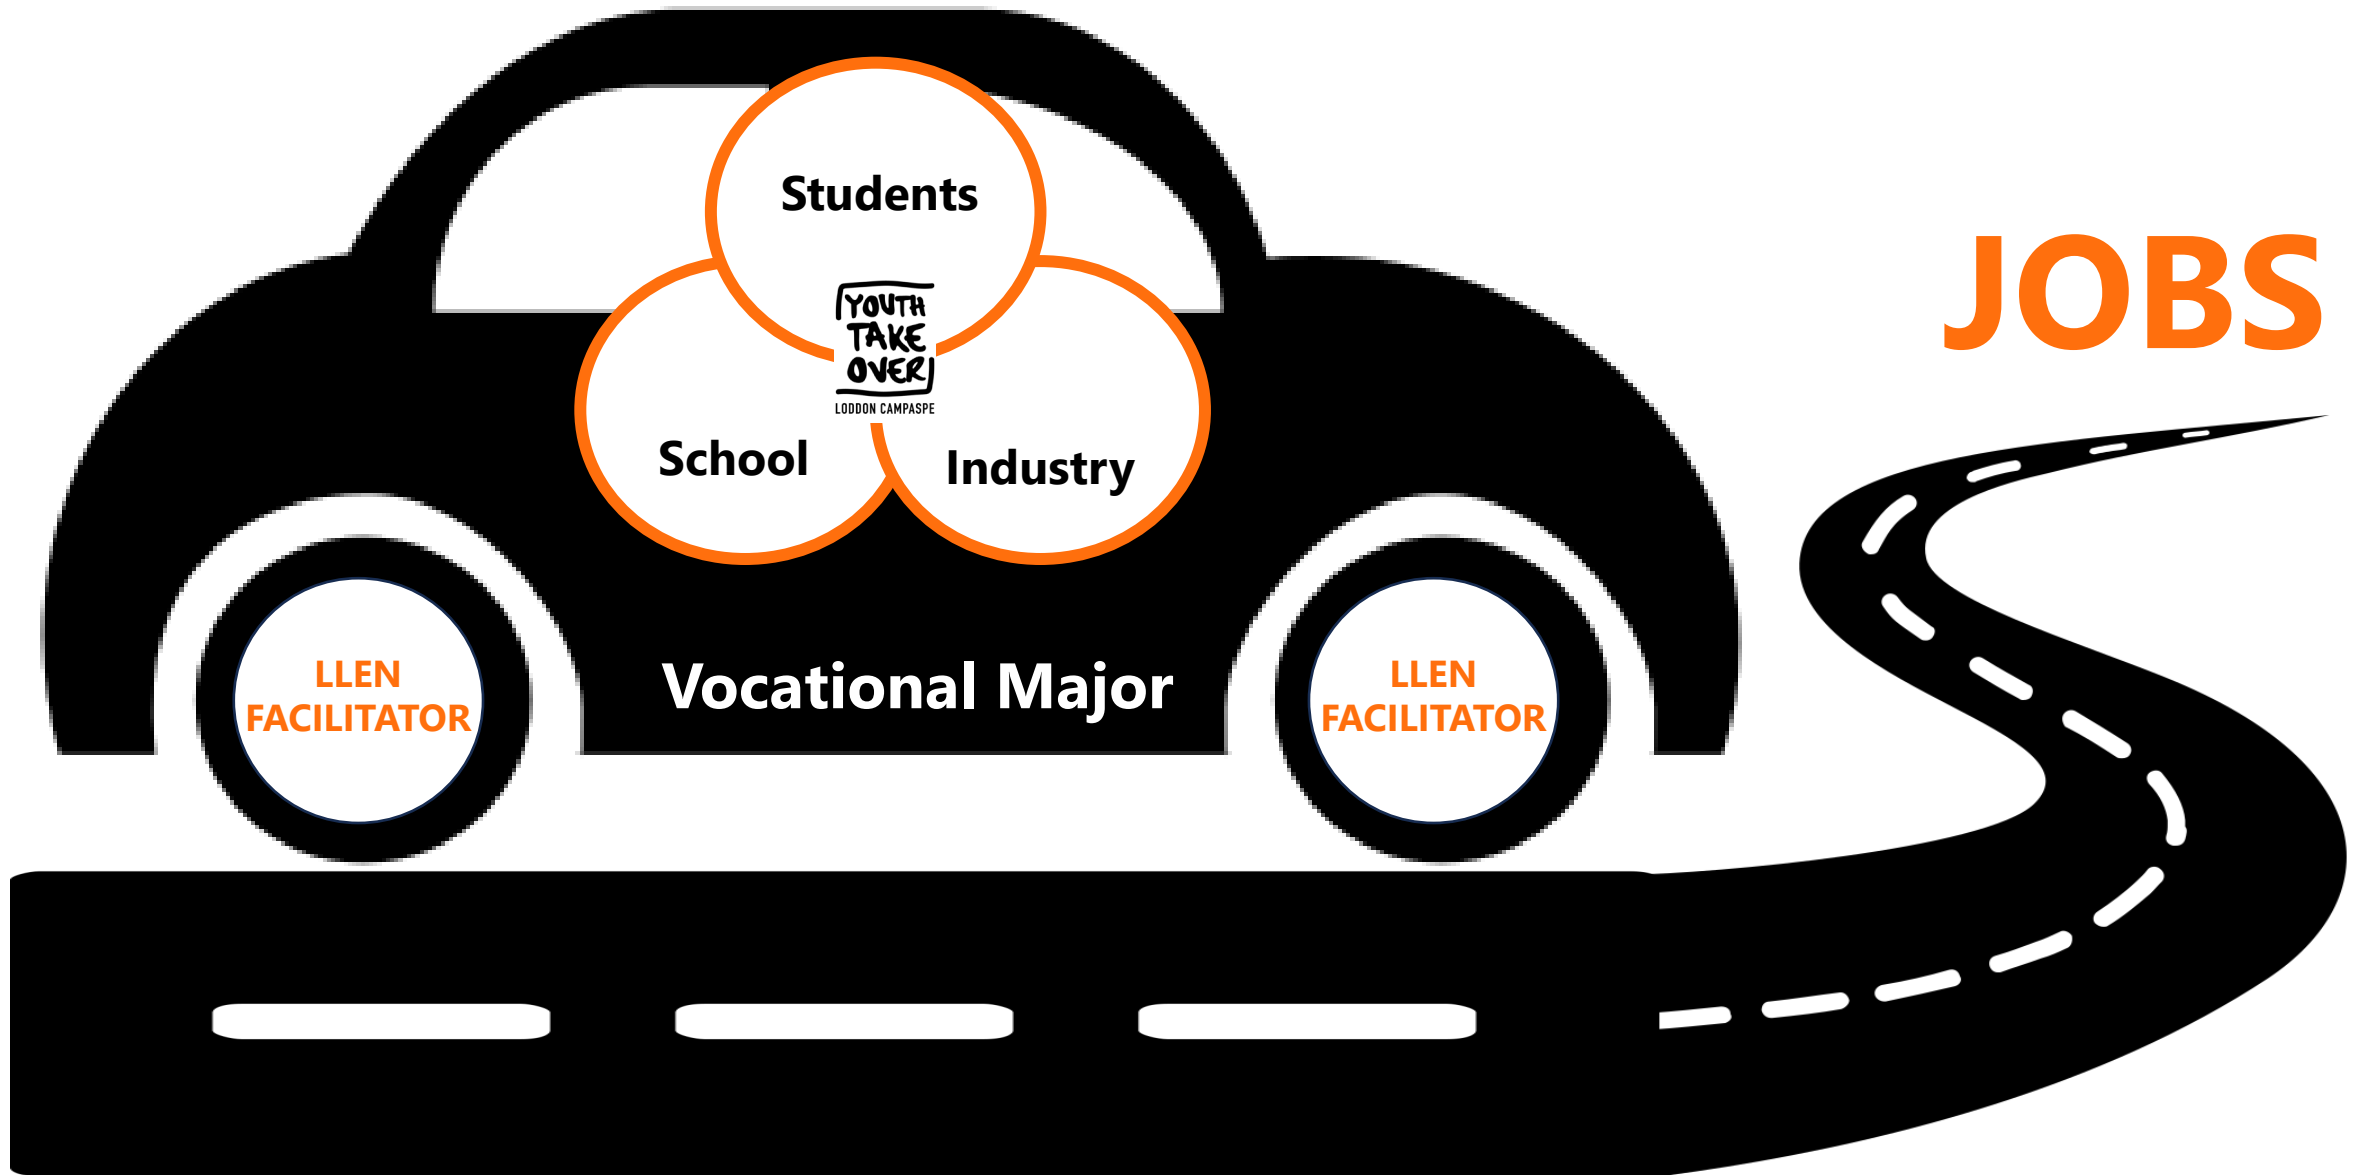

Local Jobs

Elements of Design

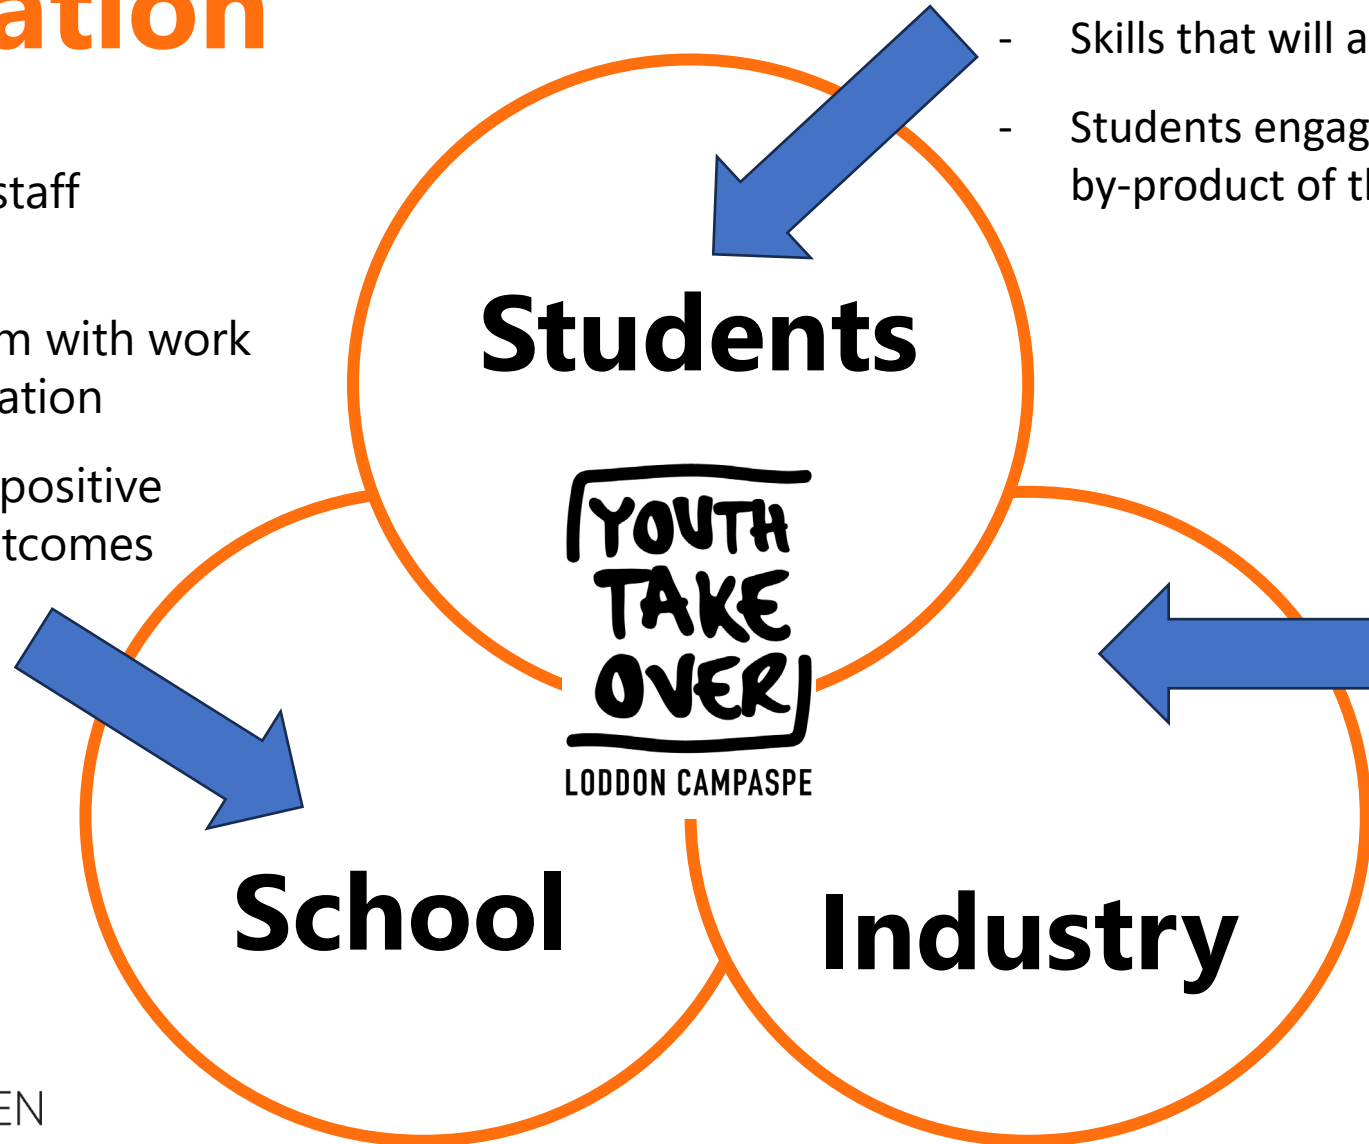

Using a new Vehicle

A model of innovation

- High levels of staff engagement
- Core Curriculum with work relevant application
- Retention and positive post school outcomes

- Real Work ... Something of value to the business becomes something of value to the students
- Skills that will assist them in any workplace.
- Students engage and achieve the curriculum as a by-product of the experience

- The difference between supply and demand
- The process delivers mutual benefit – Industry gains something from participation
- Showcase current or future job opportunities to students and their circle of influence
